

Link Annotations

Contents

Definition	1
Examples	1

Definition

[PDF Reference, Version 1.7](#), Section 8.4.5 defines **Annotations**. Links are annotations with subtypes “Link” and has associated action. Destination could point to within the document or outside.

Examples

This file contains **highlight** and link annotations for testing.

<https://pdfium.googlesource.com/pdfium> is link in plain text, not link annotation. These are referred to as **WebLinks in PDFium**.

Table of contents above is an example of links within the document. Below is an example of link on rotated shape.
